Work Experience

BeautifulCode   *Dec 2021 - Present*

SENIOR FULL STACK ENGINEER(FRONTEND HEAVY)   *Hyderabad, India*

- **Sojern:** Responsible for End to End development of **Custom React Components along with Unit Testing** from concept to deployment in project.
- Crafted new React Component using modern React APIs and tested using Jest Framework.
- Built single page applications (SPA), responsive web design, UI using HTML5 grid layouts, CSS3 media queries.
- Built cloud functions, worked with Hasura, Graphql
- Working on different **upgrades like React 16 to 18**, Hasura Upgrade.

FULL STACK ENGINEER

- **Culture.Easy:** Worked as a Full Stack Developer for their core Product.
- Contributed as a Frontend developer on creating new Custom Components, Single page applications (SPA), responsive web design, UI using HTML5 grid, CSS3 media queries.
- Contributed as a Back-end developer on enhancing the performance of existing API's by improving the response time and adding up new features.
- Worked on creating Db design to development and Unit Testing
- culture.easy is a product which unlocks high performance culture in your teams giving themselves the best chance to go after business and personal development goals.
- Working in a startup culture is the key takeaway for me.

Hashedin By Deloitte   *Sep 2020 - Dec 2021*

SOFTWARE ENGINEER (BACKEND)   *Banglore, India*

- **HCSC Keystone Accums:** I create Micro-services and Enhance existing ones for the HCSC Accums unit.
- Contributing as a Back-end developer on enhancing the Pre build system and adding up new features.
- Enhance and increase the performance of pre developed APIs, building ReST APIs for communication and writing services to process business logic.

SOFTWARE ENGINEER (FRONTEND)

- **Adecco Staffing Agency:** Worked as a Frontend Developer in building the React Components in Reactjs and integrating the Backend api for get and post of some data.
- Meeting deadlines and work under pressure was the key takeaway for me.
